What is UC-II® Collagen?

Type II collagen is the main structural protein in cartilage.

UC-II® is a form of an undenatured collagen type II made by a patented process that works with the immune system to enhance healthy joint function.

Triple Benefit

1. *UC-II® Collagen helps enhance **joint health** and reduces mild joint pain associated with symptoms of mild arthritis.*
2. *Vitamin C for collagen formation to promote **joint mobility**.*
3. *Manganese for healthy connective tissue development and UC-II® Collagen supports **healthy cartilage recovery**.*
