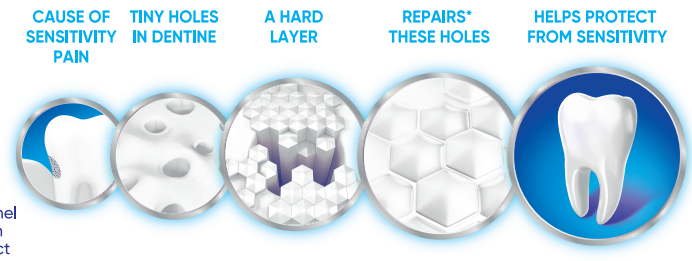
SENSODYNE

REPAIR & PROTECT

DEEP REPAIR*

What is tooth sensitivity?
Sensitivity can occur when the dentine underneath the tooth enamel and gums becomes exposed. When exposed dentine comes into contact with hot or cold, sweet or sour, or even your toothbrush, it can trigger the nerve causing a short sharp pain.



NOVAMIN FORMULATION

SENSODYNE Repair & Protect Whitening, powered by **NOVAMIN**, is a calcium sodium phosphosilicate formulation. With twice daily brushing, it helps repair* sensitive areas with the natural building blocks of teeth. It relieves painful sensitivity to help you enjoy life.

*forms a protective layer over the sensitive areas of the teeth. Brush twice a day for lasting sensitivity protection.

Why use Sensodyne Repair & Protect Whitening?
It helps to repair* and protect the sensitive areas of the teeth. Brush twice a day for lasting sensitivity protection, and to help restore the natural whiteness of your teeth. It also contains fluoride to help strengthen the teeth and has a fresh minty taste to leave your mouth feeling clean and fresh.

DIRECTIONS FOR USE: DO NOT SWALLOW.
Not for use by children 12 years of age or under unless on the advice of a dental professional or doctor. The ends of this carton have been glued down. Do not use if carton ends are open. **ALWAYS FOLLOW THE LABEL.** Brush twice a day and not more than 3 times, be sure to spit out. If irritation occurs discontinue use. Keep out of reach of children. Replace lid to keep product dry.

WARNINGS AND PRECAUTIONS: Sensitive teeth may indicate an underlying problem that needs prompt care. If symptoms persist or worsen consult your dentist.
Store below 30°C.
Made in Thailand.
