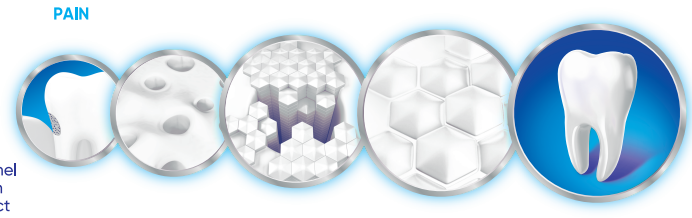
SENSODYNE

REPAIR & PROTECT

DEEP REPAIR®

What is tooth sensitivity?
Sensitivity can occur when the dentine underneath the tooth enamel and gums becomes exposed. When exposed dentine comes into contact with hot or cold, sweet or sour, or even your toothbrush, it can trigger the nerve causing a short sharp pain.



NOVAMIN FORMULATION

SENSODYNE Repair & Protect, powered by **NOVAMIN**, is a calcium sodium phosphosilicate formulation. With twice daily brushing, it helps repair* sensitive areas with the natural building blocks of teeth. It relieves painful sensitivity to help you enjoy life.

*forms a protective layer over the sensitive areas of the teeth. Brush twice a day for lasting sensitivity protection.
