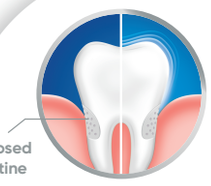
What are sensitive teeth?
Many people have sensitive teeth. When enamel is worn away or gums recede, the dentine underneath becomes exposed. This can lead to tooth sensitivity, for example with cold and hot food and drinks.

What does Sensodyne do?
Sensodyne is proven to relieve sensitive teeth, and with twice daily brushing every day, it provides 24/7 protection from sensitivity, plus all the benefits you would expect from a daily toothpaste - strong teeth, healthy gums and fresh breath.



24/7
Sensitivity Protection*
+ Strong Teeth
+ Healthy Gums*

Use Sensodyne Daily Care + Whitening twice a day, every day:
- To provide long-lasting relief for sensitive teeth
- Helps to remove plaque when brushing
- Contains fluoride to protect against cavities
- Helps maintain healthy gums
- Helps bring back the natural whiteness of your teeth

SENSODYNE
Daily Care
+WHITENING

Sensodyne Daily Care + Whitening is a fluoride toothpaste which can be used every day and provides daily care for sensitive teeth.

*with twice daily brushing

AUST L 404152

DIRECTIONS:

DO NOT SWALLOW. Not for use by children 12 years of age or under unless on the advice of a dental professional or doctor.

ALWAYS FOLLOW THE LABEL. Brush twice a day and not more than 3 times, be sure to spit out. If irritation occurs discontinue use. Keep out of reach of children.

WARNINGS AND PRECAUTIONS:

Sensitive teeth may indicate an underlying problem that needs prompt care. If symptoms persist or worsen consult your dentist. Talk to your dentist or doctor as soon as possible if you experience swelling of the mouth or face. Store below 30°C.
