surface that keeps teeth strong, healthy and protected from sensitivity.

Acids in everyday foods and drinks can weaken and wear away your tooth enamel. Over time, this can lead to sensitive teeth.

SENSITIVITY CAN BE FLUORIDE OPTIMISED TO HELP RESTORE CAUSED BY ENAMEL STRENGTH + POTASSIUM SALTS ENAMEL FOR STRONG BEING WORN AWAY WORK INSIDE THE FOOTH TO PROTECT AGAINST SENSITIVITY

Daily Sensitivity Protection + **Enamel Strength**

Sensodyne Fresh Mint Sensitivity & Enamel is a twice daily use toothpaste with ingredients shown to help restore enamel strength.

It has a unique formula optimised to work with your mouth and drive fluoride & calcium deep into the enamel surface, actively restoring enamel strength from the first use, and contains potassium salts to effectively relieve sensitivity.

With peppermint for long-lasting freshness.
