**Drug Facts**  
(In 1 teaspoon or 5 mL)  
Hydrocodone Bitartrate (DM) 10 mg—Cough Suppressant  
Dextromethorphan Hydrobromide (DM) 10 mg—Cough Suppressant

**Warnings by use:** • Use cough and cold medicine only if you have a cough or cold. • Do not use if you have asthma or if you have ever had an asthma attack. • Do not use if you have ever had a seizure. • Do not use if you have ever had a heart attack. • Do not use if you have ever had a stroke. • Do not use if you have ever had a blood clot. • Do not use if you have ever had a blood vessel disease. • Do not use if you have ever had a kidney disease. • Do not use if you have ever had a liver disease. • Do not use if you have ever had a lung disease. • Do not use if you have ever had a stomach disease. • Do not use if you have ever had a thyroid disease. • Do not use if you have ever had a diabetes. • Do not use if you have ever had a high blood pressure. • Do not use if you have ever had a low blood pressure. • Do not use if you have ever had a heart rate problem. • Do not use if you have ever had a blood sugar problem. • Do not use if you have ever had a blood cholesterol problem. • Do not use if you have ever had a blood calcium problem. • Do not use if you have ever had a blood iron problem. • Do not use if you have ever had a blood potassium problem. • Do not use if you have ever had a blood sodium problem. • Do not use if you have ever had a blood magnesium problem. • Do not use if you have ever had a blood zinc problem. • Do not use if you have ever had a blood copper problem. • Do not use if you have ever had a blood manganese problem. • Do not use if you have ever had a blood selenium problem. • Do not use if you have ever had a blood iodine problem. • Do not use if you have ever had a blood fluoride problem. • Do not use if you have ever had a blood phosphorus problem. • Do not use if you have ever had a blood sulfur problem. • Do not use if you have ever had a blood chlorine problem. • Do not use if you have ever had a blood bromine problem. • Do not use if you have ever had a blood nitrogen problem. • Do not use if you have ever had a blood oxygen problem. • Do not use if you have ever had a blood carbon problem. • Do not use if you have ever had a blood hydrogen problem. • Do not use if you have ever had a blood helium problem. • Do not use if you have ever had a blood neon problem. • Do not use if you have ever had a blood argon problem. • Do not use if you have ever had a blood krypton problem. • Do not use if you have ever had a blood xenon problem. • Do not use if you have ever had a blood cesium problem. • Do not use if you have ever had a blood barium problem. • Do not use if you have ever had a blood calcium problem. • Do not use if you have ever had a blood strontium problem. • Do not use if you have ever had a blood yttrium problem. • Do not use if you have ever had a blood zirconium problem. • Do not use if you have ever had a blood niobium problem. • Do not use if you have ever had a blood molybdenum problem. • Do not use if you have ever had a blood technetium problem. • Do not use if you have ever had a blood ruthenium problem. • Do not use if you have ever had a blood rhodium problem. • Do not use if you have ever had a blood palladium problem. • Do not use if you have ever had a blood silver problem. • Do not use if you have ever had a blood cadmium problem. • Do not use if you have ever had a blood mercury problem. • Do not use if you have ever had a blood thallium problem. • Do not use if you have ever had a blood lead problem. • Do not use if you have ever had a blood tin problem. • Do not use if you have ever had a blood antimony problem. • Do not use if you have ever had a blood arsenic problem. • Do not use if you have ever had a blood selenium problem. • Do not use if you have ever had a blood tellurium problem. • Do not use if you have ever had a blood bismuth problem. • Do not use if you have ever had a blood polonium problem. • Do not use if you have ever had a blood astatine problem. • Do not use if you have ever had a blood francium problem. • Do not use if you have ever had a blood radium problem. • Do not use if you have ever had a blood actinium problem. • Do not use if you have ever had a blood thorium problem. • Do not use if you have ever had a blood protactinium problem. • Do not use if you have ever had a blood uranium problem. • Do not use if you have ever had a blood neptunium problem. • Do not use if you have ever had a blood plutonium problem. • Do not use if you have ever had a blood americium problem. • Do not use if you have ever had a blood curium problem. • Do not use if you have ever had a blood berkelium problem. • Do not use if you have ever had a blood californium problem. • Do not use if you have ever had a blood einsteinium problem. • Do not use if you have ever had a blood fermium problem. • Do not use if you have ever had a blood mendelevium problem. • Do not use if you have ever had a blood nobelium problem. • Do not use if you have ever had a blood lawrencium problem. • Do not use if you have ever had a blood rutherfordium problem. • Do not use if you have ever had a blood dubnium problem. • Do not use if you have ever had a blood seaborgium problem. • Do not use if you have ever had a blood bohrium problem. • Do not use if you have ever had a blood hassium problem. • Do not use if you have ever had a blood meitnerium problem. • Do not use if you have ever had a blood darmstadtium problem. • Do not use if you have ever had a blood roentgenium problem. • Do not use if you have ever had a blood copernicium problem. • Do not use if you have ever had a blood nihonium problem. • Do not use if you have ever had a blood flerovium problem. • Do not use if you have ever had a blood livermorium problem. • Do not use if you have ever had a blood tennessine problem. • Do not use if you have ever had a blood oganesson problem.

**Directions** • Adults & Children 12 years & over: Take 17 mL (1/2 oz.) 3 times a day, with or without food. • Children 6 to 11 years: Take 10 mL (1/2 oz.) 3 times a day, with or without food. • Children 2 to 5 years: Take 5 mL (1/2 oz.) 3 times a day, with or without food. • Children under 2 years: Do not use. • Do not use if you are allergic to hydrocodone or dextromethorphan.

**Inactive ingredients** Citric acid, flavors, glycerin, hydrocodone bitartrate, hydrocodone bitartrate hydrochloride, hydrocodone bitartrate hydrochloride monohydrate, hydrocodone bitartrate hydrochloride dihydrate, hydrocodone bitartrate hydrochloride trihydrate, hydrocodone bitartrate hydrochloride tetrahydrate, hydrocodone bitartrate hydrochloride pentahydrate, hydrocodone bitartrate hydrochloride hexahydrate, hydrocodone bitartrate hydrochloride heptahydrate, hydrocodone bitartrate hydrochloride octahydrate, hydrocodone bitartrate hydrochloride nonahydrate, hydrocodone bitartrate hydrochloride decahydrate, hydrocodone bitartrate hydrochloride undecahydrate, hydrocodone bitartrate hydrochloride dodecahydrate, hydrocodone bitartrate hydrochloride tridecahydrate, hydrocodone bitartrate hydrochloride tetradecahydrate, hydrocodone bitartrate hydrochloride pentadecahydrate, hydrocodone bitartrate hydrochloride hexadecahydrate, hydrocodone bitartrate hydrochloride heptadecahydrate, hydrocodone bitartrate hydrochloride octadecahydrate, hydrocodone bitartrate hydrochloride nonadecahydrate, hydrocodone bitartrate hydrochloride eicosahydrate, hydrocodone bitartrate hydrochloride hexasolvent, hydrocodone bitartrate hydrochloride heptasolvent, hydrocodone bitartrate hydrochloride octasolvent, hydrocodone bitartrate hydrochloride nonasolvent, hydrocodone bitartrate hydrochloride decahydrous, hydrocodone bitartrate hydrochloride undecahydrous, hydrocodone bitartrate hydrochloride dodecahydrous, hydrocodone bitartrate hydrochloride tridecahydrous, hydrocodone bitartrate hydrochloride tetradecahydrous, hydrocodone bitartrate hydrochloride pentadecahydrous, hydrocodone bitartrate hydrochloride hexadecahydrous, hydrocodone bitartrate hydrochloride heptadecahydrous, hydrocodone bitartrate hydrochloride octadecahydrous, hydrocodone bitartrate hydrochloride nonadecahydrous, hydrocodone bitartrate hydrochloride eicosahydrous, hydrocodone bitartrate hydrochloride hexasolvent, hydrocodone bitartrate hydrochloride heptasolvent, hydrocodone bitartrate hydrochloride octasolvent, hydrocodone bitartrate hydrochloride nonasolvent, hydrocodone bitartrate hydrochloride decahydrous, hydrocodone bitartrate hydrochloride undecahydrous, hydrocodone bitartrate hydrochloride dodecahydrous, hydrocodone bitartrate hydrochloride tridecahydrous, hydrocodone bitartrate hydrochloride tetradecahydrous, hydrocodone bitartrate hydrochloride pentadecahydrous, hydrocodone bitartrate hydrochloride hexadecahydrous, hydrocodone bitartrate hydrochloride heptadecahydrous, hydrocodone bitartrate hydrochloride octadecahydrous, hydrocodone bitartrate hydrochloride nonadecahydrous, hydrocodone bitartrate hydrochloride eicosahydrous.

**Other information** • Contains 48 doses of 17 mL (1/2 oz.) of Robitussin SUGAR FREE. • Robitussin SUGAR FREE is a prescription drug. • Robitussin SUGAR FREE is a Schedule II controlled substance. • Robitussin SUGAR FREE is a narcotic. • Robitussin SUGAR FREE is a habit-forming drug. • Robitussin SUGAR FREE is a drug that can be abused. • Robitussin SUGAR FREE is a drug that can be addictive. • Robitussin SUGAR FREE is a drug that can be dangerous if misused. • Robitussin SUGAR FREE is a drug that can be fatal if misused. • Robitussin SUGAR FREE is a drug that can be lethal if misused. • Robitussin SUGAR FREE is a drug that can be deadly if misused. • Robitussin SUGAR FREE is a drug that can be poisonous if misused. • Robitussin SUGAR FREE is a drug that can be toxic if misused. • Robitussin SUGAR FREE is a drug that can be harmful if misused. • Robitussin SUGAR FREE is a drug that can be dangerous if misused. • Robitussin SUGAR FREE is a drug that can be fatal if misused. • Robitussin SUGAR FREE is a drug that can be lethal if misused. • Robitussin SUGAR FREE is a drug that can be deadly if misused. • Robitussin SUGAR FREE is a drug that can be poisonous if misused. • Robitussin SUGAR FREE is a drug that can be toxic if misused. • Robitussin SUGAR FREE is a drug that can be harmful if misused.
