

Panaflex

MUSCLE & JOINT Pain Relief Patch

Contains Medicinal Ingredients

Indications: Relief of muscular and joint pain in various part of body such as shoulder, neck, waist, back, elbow and knee.
Benefits: Penetrates through skin to help relief - Soothes back, neck & muscle pain - Immediate cooling effect
Contraindications: Contraindicated in children below 2 years of age and in patients with known hypersensitivity to glycol salicylate, menthol, camphor or tocopherol acetate or any other ingredient of the preparation.
Warnings and Precautions: Use the product with caution in patients with history of allergic reaction to aspirin or other NSAIDs. The product should be applied only to intact, non-diseased skin and not to skin wounds. The product should not come into contact with the eyes, nostrils, and other mucous membranes. In case of accidental contact, the eyes or other mucous membranes should be rinsed well with water. The product should not be used with external heat, such as electric heating pad, as it may result in excessive skin irritations or skin burns. Some people may experience discomfort, particularly those with sensitive skin, if the product is used after a bath. If the condition does not improve or worsens within 7 days of starting treatment, patients should seek medical advice to exclude an alternative underlying cause of pain. Discontinue the treatment if skin irritation occurs. Not for use in children under 12 years of age unless directed by a healthcare professional. Seizures may occur in children with a history of seizures due to the presence of benzene derivatives (menthol and camphor). A small amount applied this way may cause immediate collapse. Keep out of the sight and reach of children. The product should not be applied near the nostrils of children due to the presence of camphor.
Interactions: If you are taking anticoagulants (eg warfarin) and antiplatelet medications, please consult your doctor before using this product as it may result in increased risk of bleeding.
Pregnancy and Lactation: Do not use during pregnancy or when breastfeeding.
Side Effects: Application site hypersensitivity, application site reaction, skin burning sensation, rash and pruritus.
Symptoms and Treatment of Overdose: Overdose after incorrect topical application or due to accidental ingestion for products containing salicylates and menthol can be associated with a number of symptoms which can include: nausea, vomiting, severe abdominal pain, sweating, tinnitus, vertigo, dizziness, ataxia, headache, confusion, drowsiness and coma. Overdose from camphor can in addition be associated with oropharyngeal burning, muscle twitching, depression of the CNS and epileptiform convulsions. Relatively large amounts of vitamin E usually cause no harm but occasionally muscle weakness, fatigue, nausea, and diarrhoea occur. In the event of overdose, supportive care may be required. Further management should be as clinically indicated or as recommended by the national poisons centres where available.
Storage Conditions: Store below 30°C.

Dosage and Administration • Dos dan Arahan Penggunaan

For topical use only. Treat only one painful area at one time. **Maximum duration of use without medical advice:** 7 days. To be applied to the affected area up to 3 or 4 times a day as required. **Maximum daily dose:** 4 patches. For use in adults and children aged 12 years and above. Children under 12 years of age: seek medical advice before use. Sweat and dirt may reduce the adhesion of the patch. Clean and dry the affected area to increase the adhesiveness.

1. Open the pouch and take out a patch. Peel off protective backing.
2. Apply sticky side to affected area.
3. Adhesive sheet is readily cut into 6 small pieces.
4. Peel off 2 small pieces of adhesive sheet, stick at the edge of patch to prevent patch from moving.

After application, wash your hands.

Untuk penggunaan topikal sahaja. Rawat hanya satu bahagian badan yang sakit pada satu masa. **Tempoh maksimum penggunaan tanpa nasihat perubatan:** 7 hari. Untuk digunakan pada bahagian badan yang sakit sehingga 3 atau 4 kali sehari mengikut keperluan. **Dos harian maksimum:** 4 ubat tampalan. Untuk penggunaan orang dewasa dan kanak-kanak berumur 12 tahun ke atas. Kanak-kanak di bawah 12 tahun: dapatkan nasihat perubatan sebelum guna. Peluh dan kotoran boleh mengurangkan kelekatan ubat tampalan ini. Bersihkan dan keringkan kulit kawasan sakit untuk meningkatkan kelekatan ubat tampalan.

1. Buka kantung dan keluarkan satu ubat tampalan. Tanggalkan lapisan pelapik.
2. Letakkan sebelah ubat tampalan yang melekit pada bahagian yang sakit.
3. Pelekat tambahan adalah sedia dipotong kepada 6 kepingan kecil.
4. Tanggalkan 2 kepingan pelekat tambahan dan lekatkan pada hujung tampalan ubat untuk mengelakkannya daripada bergerak.

Basuh tangan selepas guna.

Active Ingredients:

Glycol Salicylate	1.5% w/w
L-Menthol	1.0% w/w
DL-Camphor	0.5% w/w
DL- α -Tocopherol Acetate (Vitamin E)	0.3% w/w

Inactive Ingredients: Glycerin, tartaric acid, sorbitol solution, kaolin, titanium dioxide, purified water, sodium polyacrylate, silicon dioxide, polyvinylpyrrolidone, polysorbate 80, sorbitan monooleate, carbonylmethylcellulose sodium, sodium polyacrylate starch, PVA solution.
