Dual action for TOOTH SENSITIVITY & HEALTHY GUMS*

SENSODYNE Sensitivity & GUM

Tooth sensitivity & concerned about the health of your gums? Many people with sensitive teeth also worry about their gum health. Tooth sensitivity can occur when exposed dentine comes into contact with cold, hot, sweet and sour. With twice daily brushing, healthy gums can be maintained by defending against a build-up of plaque bacteria.

Sensodyne Sensitivity & Gum works to relieve tooth sensitivity and maintain healthy gums*. Builds a protective layer over the sensitive areas, effectively relieving tooth sensitivity.

Micro foam formula penetrates hard to reach areas in between teeth and along the gumline. Twice daily brushing helps to remove plaque, and helps maintain healthy gums.

MICRO FOAM GETS INTO HARD TO REACH AREAS

RELIEVES TOOTH
SENSITIVITY & MAINTAINS
HEALTHY GUMS'

mouth feeling cleansed.
