CLINICALLY PROVEN TO REDUCE SIGNS OF EARLY GUM DISEASE*:
✓ BLEEDING ✓ REDNESS ✓ SWELLING ✓ BAD BREATH

parodontax ACTIVE GUM REPAIR

Bleeding, redness, swelling, and bad breath can be signs of gum disease.

parodontax Active Gum Repair Breath Freshener is a daily fluoride toothpaste that reduces signs of early gum disease and uses Breath Cleanse Technology to purify bad breath instead of just masking it. Specially formulated to kill plaque bacteria at the gumline to help keep the gum seal tight.

Its Breath Cleanse Technology utilizes zinc, an ingredient clinically proven to purify the gases that cause bad breath.

bad breath

Drug Facts

Active ingredient

Stannous fluoride 0.454% (0.15% w/v fluoride ion)

Purposes

Anticavity, Antigingivitis

Uses

- aids in the prevention of dental cavities.
- helps control bleeding gums.
- helps interfere with harmful effects of plaque associated with gingivitis.

Warnings

- Stop use and ask a dentist if
- gingivitis, bleeding, or redness persists for more than 2 weeks.
 - you have painful or swollen gums, pus from the gum line, loose teeth, or increasing spacing between the teeth. These may be signs or symptoms of periodontitis, a serious form of gum disease.

Keep out of reach of children under 6 years of age. If more than used for brushing is accidentally swallowed, get medical help or contact a Poison Control Center right away.

Directions

- adults and children 2 years of age and older.

Drug Facts (continued)

- brush teeth thoroughly, preferably after each meal or at least twice a day, and not more than 3 times a day, or as directed by a dentist or doctor. Minimize swallowing. Spit out after brushing.
- to minimize swallowing for children under 6 years of age, use a pea-sized amount and supervise brushing and rinsing until good habits are established.
- children under 2 years of age: Consult a dentist or doctor.

Other information

- products containing stannous fluoride may produce surface staining of the teeth. Adequate toothbrushing may prevent these stains which are not harmful or permanent and may be removed by your dentist.
- this product is specially formulated to help prevent staining.
- do not store above 25°C (77°F)

Inactive ingredients glycerin, PEG-8, hydrated silica, pentasodium triphosphate, flavor, sodium lauryl sulfate, titanium dioxide, polyacrylic acid, cocamidopropyl betaine, sodium saccharin, zinc chloride, carrageenan
