

parodontax

COMPLETE PROTECTION

Effective Cleaning*

Children under 6 years should be supervised during brushing. To clean the tongue, rub the surface with the grooves on the brush head and rinse. Choking hazard if placed too far back into the mouth. Do not allow bristles or toothbrush to be chewed. Excessive bending may break the neck of the toothbrush. It is recommended that toothbrushes are replaced every 3 months.

*Compared to flat trim toothbrush in laboratory study

**Helps restore natural whiteness with twice daily brushing
