Why clean daily with POLIDENT?

If not cleaned daily, food particles and build-up can get stuck under your dental appliance, which can lead to unsightly stains and malodor. Removing your dental appliance daily can help relieve soreness and pressure from wearing them across the day.

POLIDENT with more ACTIVE POWER BUBBLES* is a daily cleanser specially designed for dental appliances. It cleans away stains and plaque build-up leaving your dental appliance fresh, all while killing 99.9% of odor-causing bacteria*.

Use daily for a clean, fresh, healthy smile!

*vs previous POLIDENT range

*In lab tests

^Suitable for common dental appliances

ULTRA-FAST DEEP CLEAN
AGAINST STAINS & BUILD-UP

POLIDENT with more ACTIVE POWER BUBBLES* for an amazingly clean dental appliance, every day!

POLIDENT with more ACTIVE POWER BUBBLES* is a daily cleanser that actively cleans even the hardest to reach places* of your dental appliance. Each tablet is made with a specially designed combination of ingredients generating more ACTIVE POWER BUBBLES* that are tough on dirt but gentle on your dental appliance – removing stains and plaque build-up – leaving it clean and fresh. Just soak, brush, rinse, and go!

IMPORTANT: Read all directions before use.

DIRECTIONS FOR DAILY USE

1. Drop one POLIDENT cleanser tablet into enough very warm (not hot) water.

2. Add denture or dental appliance to the soaking solution. Ensure that it is fully covered.

3. After soaking for 3–5 minutes, brush denture or dental appliance with solution using a soft brush. Discard remaining solution immediately after use. Rinse thoroughly under running water.
