**Helpful Hints:**

For the first time, use a SMALL amount. Use more if needed. Too much adhesive can cause oozing; apply less next time if this occurs. It may take a few tries to find the right amount for your denture. Apply once a day for secure hold. **If you need to apply more than once a day, seek the advice of your dental care professional.** To keep tip from clogging, keep cap and nozzle dry. Replace the cap after use. **KEEP CARTON FOR COMPLETE DIRECTIONS AND WARNINGS.**

APPLYING:
