Drug Facts

Active ingredients

Potassium nitrate 5%.....Antihypersensitivity
Sodium fluoride 0.25% (0.15% w/v fluoride ion).....Anticavity

Purposes

Uses

- builds increasing protection against painful sensitivity of the teeth to cold, heat, acids, sweets, or contact.
- aids in the prevention of dental cavities.

Warnings

Stop use and ask a dentist if

- the problem persists or worsens. Sensitive teeth may indicate a serious problem that may need prompt care by a dentist.
- pain/sensitivity still persists after 4 weeks of use.

Keep out of reach of children. If more than used for brushing is accidentally swallowed, get medical help or contact a Poison Control Center right away.

Drug Facts (continued)

Directions

• adults and children 12 years of age and older:

- apply at least a 1-inch strip of the product onto a soft bristle toothbrush.

Rebuilds, Restores, Refreshes

HALEON

Fresh Wave

FRESH BREATH

NET WT
4.0 OZ (113 g)

Acidic foods and drinks can cause enamel loss that can lead to yellowing, dullness and sensitivity. Pronamel has a specialty formulation to help rebuild and restore acid weakened enamel, helping prevent enamel loss for strong, healthy teeth.

Healthy white teeth start with strong enamel.

Pronamel has a proven specialist technology that has been developed to maximize the effect of fluoride on enamel.

With twice-daily brushing, Pronamel helps to:

- Rebuild enamel strength for strong, healthy teeth
- Protect against the effects of dietary acids
- Relieve sensitive teeth
- Freshen breath
- Protect against cavities
